

## EXPANDING THE ENVELOPE OF EVIL

### “Train Up A Child In The Way He Should Go”

What’s next for our nation on the continually slip into the mire. When you think things won’t get any worse,.....it does!

America has been on the slippery slope into the abyss for over 50 years. But in the past few years, the slide into the abyss seems to be accelerating. The ruling by the Supreme Court in June 26, 2015 for Gay marriage seems to have taken off all the stops. Within just a few hours of the ruling, the mantra for transgender approval raised it’s ugly head. By 2016, President Obama began pushing new transgender bathrooms in public buildings, schools, and businesses.

Statewide arguments began to erupt, and states began passing laws in what the administration called a rebellion against his administration. Since that time, the shift into the abyss has found a new low. It is in the push to allow the children to decide their own gender. The fruits of this new stance for our nation will be horrendous.

The American family Assoc. put out a great letter in response that is worth noting. It says a lot of what we have been teaching. I’ll include it here.

“Last week, National Geographic announced their January edition would feature a nine year old boy who wants to be perceived as a girl. The magazine’s editor wrote, She has lived as an openly transgender girl since age 5, and she captured the complexity of the conversation around gender. Today, we’re not only talking about gender roles for boys and girls—we’re talking about our evolving understanding of people

on the gender spectrum.”

Advocates for sexual deviancy have quickly moved from using adults to promote their agenda to exploiting children as the face of their cause.

Susan Goldberg, the National Geographic editor, should be ashamed of herself for using a young child in such an abusive manner. The overwhelming majority of doctors and psychiatrists label what this child is going through as “gender dysphoria” and National Geographic is lauding it as beautiful.”

Studies show that roughly 40% of those who identify as transgender end up attempting suicide. Is this a lifestyle that should be lauded?

From the beginning of mankind there have been two sexes: male and female. Genesis 1:27 says, So God created man in his own image, in the image of God he created him, male and female he created them.”

National Geographic is the latest print media company to abandon what it does best to foist a lifestyle in the American public that the medical community identifies as unhealthy. Imagine the pain and psychological trauma gender dysphoria causes children and adults. Rather than abandoning geography to shame Americans into embracing such a lifestyle, we should be helping individuals who struggle with this disorder. That is, helping confused individuals accept their wonderfully crafted and God-given biology.”

Tim Wildmon, President American Family Association

“Train up a child in the way he should go,  
And when he is old he will not depart from it.”  
Prov. 22:6

If we as a nation ever expect to restore the greatness of America, we will need to address the sins of the nation that has brought us down. This means that over fifty years of the “politically correct culture” needs be reversed and repented of.

It also means, that an entire way of life has to be altered. Is this possible? We need to think this through. Questions need to be asked like, how did we get here? Who controls the rhetoric that feeds the minds of young and old every day? Who are the gate keepers of what stories we hear and how they are slanted? Who are the gate keepers to the minds of the youth, and how is the information being shared? What about the older youth graduating high school or college and going into the world to make it on their own?

Why are the welfare recipients of third and fourth generation families still having babies when they themselves are just children of 14, 15, or 16, years old and have never been taught to hold a job or care for themselves?

Worse than all of this is the gate keepers of God’s Holy Word. God tells us through the prophet Jeremiah *“Woe to the shepherds who are destroying and scattering the sheep of my pasture! declares the LORD.”* (Jer. 23:1) In several places God calls them brutish leaders and to the Pharisees Jesus called them blind and whitewashed sepulchers; *“Woe to you, teachers of the law and Pharisees, you hypocrites! You are like whitewashed tombs, which look beautiful on the outside but on the inside are full of the bones of the dead and everything unclean.”* (Matt. 23:27)

Shall I go on? If we look at things on a surface level without God’s Word in the picture, it could become quite depressing. When you break down society into its micro nature and workings, things look pretty bleak. The truth is, everything I have just addressed is real. Our nation is in trouble. But there is more to the story than what is on the surface, and that’s where we, “all of God’s called out ones” come into the picture.

### The Hope That Is In Us

The Bible tells us, *“if there is no hope beyond this life we are of all men most miserable”* (1 Cor. 15:19) Despite all that is bad in the world, God has called us to light a fire and be the beacon of hope. What God has showed us in this

past election should be encouraging to the work you and I have been called to do. In the midst of all the evil, rottenness, sickness, and perversion across this nation; as the election unfolded, we watched as millions on the conservative right, the moderate Christians, rose up and let their voices be heard. They broke through the boundaries of political correctness

They were patriots that loved their families, their country, their military, and this nation. Maybe they have not been given the truth yet, but, and this is an important but; the understanding that God allowed them to have at this stage of their lives, they walked and lived by it. They were not ashamed to speak out and boldly for the name of Jesus Christ. This is the same personality type that God called to the WCG in the 60’s and 70’s. The greatest growth of any time for the modern church.

### The Climate Of Our Nation Is Changing

From all appearances we are close to the time of the return of Christ, and we may be at the greatest calling of all times of any generation. The Bible refers to this time and those called out as the, “innumerable multitude.” *“Those that have come out of great tribulation and washed their robes.”* (Rev 7:14)

We need to keep that at the forefront of our minds when things look so bleak. To have a part in this part of God’s plan of salvation for mankind is beyond the comprehension of our human minds. Even so, it is real, and we have been given the opportunity to be a part.

Each of us as a force of one with Christ as our head, can accomplish great things if we allow Him to work in us. Through that power, He will bless us and open doors we have never even considered at this time. Just imagine if the churches pools that spirit to work together under Christ, what can be accomplished.

God’s Blessings to all,

Tom Kerry

### Releasing This Month, Our New TV Special

*Return the enclosed card to receive your DVD copy . Be on the look out. This is our most important special yet*

IN CLOSING: We should be closing the books on 2016 in just a couple of weeks. Through God’s Mercy, and all of your support, we are closing the year up approximately 15% over last year. But those are just numbers. What is more important, is that God has blessed us to be able to have many new supporters, and viewers of our DVD’s and God’s Unchanging Word. I’ll share more of this in the next news letter.

It has left us with a wonderful problem. People asking if there is a church in their area, and some asking for baptism in areas where we don’t have people to send to counsel and baptize. Please keep this in your prayers as we tackle the wonderful problem of growth for the church.
